

AGREEMENT ON ACADEMIC COOPERATION

In line with the development of friendly international cooperation in accordance with our mutual interests in developing programs of academic exchanges and establishing a long-term mutually beneficial network, Pukyong National University and its partner institutions (hereafter referred as to “Parties”), join in the following Agreement of Academic Cooperation.

This academic cooperation aims to develop a network of the Parties with real connections in order to improve the quality of education, science-technology and internationalization. The Parties agree to encourage academic cooperation through the activities of cooperation outlined below:

1. Establish ties of friendship and cooperation;
2. Promote mutual understanding, academic collaboration, cultural and personnel exchanges (students, scholars and researchers);
3. Facilitate any other collaborative efforts that may deem beneficial to the Parties.

Other specific areas may be agreed by mutual agreement between the Parties. The Parties seek to build a solid cooperative partnership through international cooperation in education, sciences and culture, and contribute to the achievement of the sustainable development of all the Parties that join in this Agreement.

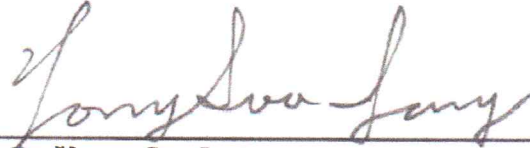

This agreement serves as the intention of the Parties to work together to promote academic and educational linkage. While no commitments have been made by the Parties binding the institutions, the Parties sign this Agreement in recognition of their common interests and as a token of their good will. Any current academic exchange agreements that may exist between the Parties are not invalidated by this Agreement.

This Agreement shall become effective on the date of signing for three (3) years. Revision or renewal of this Agreement is subject to mutual consent of the Parties.

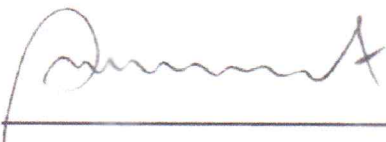

In witness whereof the Parties hereto have executed the Agreement on academic cooperation as of the date November 7, 2022.
